

Features

- ☆☆☆ Strict quality control systems (ISO/TS16949:2002 及 ISO9001:2000) ensuring stable quality of every piece of product delivered.
- ☆☆☆ Refrigerating treatment and heat treatment equipment to ensure the perfect metallurgical structure and size stability.
- ☆☆☆ A special heat treatment is adopted to extend the service life to 3 to 5 times longer.
- ☆☆☆ Automatic production & assembly lines ensure the high precision quality stability.
- ☆☆☆ The highest precision can reach P2, vibration and vibration acceleration can meet Z4,V4.
- ☆☆☆ The combination of strong technology and advanced equipments enable us to develop and manufacture non-standard products. Please contact us for details.

List of Products:

- ☆ Deep Groove Ball Bearings
- ☆ Single Row Angular Contact Ball Bearings
- ☆ Angular Contact Thrust Ball Bearings
- ☆ Double Row Cylindrical Roller Bearings
- ☆ Full Complement Deep Groove Ball Bearings
- ☆ Customized or Non-standard Bearings
- ☆ Double Row Angular Contact Ball Bearings
- ☆ Four-point Angular Contact Ball Bearings
- ☆ Self-aligning Ball Bearings
- ☆ Spherical Outer Ring Deep Groove Ball Bearings
